No. 1932—Eighth Year. BUENOS AYRES, SUNDAY, JULY 19, 1868. Circulation 3000

MAUA BANK,
101–103 CALLE CANGALLO

The offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

EXTRACTUM CARNIS.
LIEBIG'S SYSTEM.

The Consumption of this substance, the concentrated nutritious parts of Meat, is daily increasing.

Physicians recommend its use in several diseases, and for Convalescents.

Aged Persons, Infants after being Weaned, People of Weak Digestion, and Sickly, and those who desire an agreeable and efficacious substitute for Cod Liver Oil, take it with very good results.

It is of great service in Cookery, serving as a basis to all kind of Soups, Sauces, and Made Dishes.

It is also anti-scorbutic;—it ought to be used on Board of all Vessels to prevent that disease.

It is to be found, with a direction for use, at:—
TOLEDI and MAINE'S, 15 Piedras.

The Company insures against loss or Damage by Fire Private Dwelling-Houses, Goods Deposited in Specific Warehouses of Stone or Brick, &c., &c.; and also issues "Floating Policies," extending to the Custom-House and all or any of the Private and Bonded Stores.

The whole advantages which can possibly be contemplated by those desiring to effect Fire Insurances, may be resolved into the following:—

1st. Security.
2nd. Honor and liberality on the part of the Company, in whose hands they place their interest; and
3rd. The purchase of these advantages at a moderate rate.

It will be found that all these are presented by this Company to the Public in an eminent degree.

The Company's large Capital, under the immediate management of the Directors of this Establishment, affords perfect security to the Assured, while it may confidently assert, from the Constitution of the Board of Direction, from the character of its present Members, and from the qualifications which will be deemed indispensable in their successors, that the highest honor and liberality will ever characterize all its transactions.

It has been the object of the Directors, in their minor arrangements, to afford every possible facility to those effecting Assurances with the Alliance, and the undersigned hold a Power of Attorney enabling them to settle at once any Losses that may occur from Fire, Lightning, or Explosions of Gas in Buildings, on or in which this Company has granted Assurances.

ESTANCIA FOR SALE.—A Tract of Land in the Oriental Republic, for position, quality, and beauty not to be surpassed, upon which a Sheep and Cattle Farm has been formed, possessing every requisite for comfort, security, and convenience, is offered for Sale. It is well stocked with Horn Cattle, Sheep and Horses, and situated upon the Arroyo Negro, one of the finest for Agricultural and Pastoral purposes in the Province. It is surrounded by large English Farms in a very good neighbourhood, and a short distance from the important town of Paysandu, considered the second city in the Oriental Republic on the River Uruguay, navigable for seagoing vessels, which constantly load hides, tallow, wool, and other produce for Europe. To and from this Port ply large steamers almost daily to Buenos Ayres, Montevideo, and almost every seaport in the Argentine Republic.

This Property is in the market, owing to the decease of the late Owner. It is an opportunity which seldom offers either to form a Company or for a private capitalist. Sheep have increased, 30 per Cent. per Annum, and the Land is constantly increasing in value. Wood and Water are abundant. The Titles are unquestionable, and in the most perfect order.

The Boundary Lines of the Land are three flowing streams or rivulets.

For further particulars apply to the Executor, Mr. FREDERICK PLOWES, at Messrs. Balbin and Plowes', 19 Calle Peru.

RIVER PLATE ROMANCE.

Compelled as we are to occupy our columns with the political and financial question of the hour, it is refreshing to be able even on one day in the week to push from us piles of agricultural and commercial literature on our table to draw aside Railway reports, Government decrees and illusory projects, and turn to subjects which even in childhood enslaved the imagination and captivated the mind.

Possibly the editor who best serves his public is he who adapts his subject to the day of publication, it has often been suggested to us that on Sunday morning we should write a Sunday article, beginning about the Early christians going to Church, &c, the benefit of good example, model parents with neatly dressed children freighted with unostentatious prayer books proceeding to the house of God, Sunday school regulations, and the halcyon hours passed in teaching catechism—doubtless all this is very good, but we confess to no such sanctimonious ambition, an editor is not a pastor, and although our aim is to spread sunshine around the breakfast table, our task is news not devotion: we do not alienate the mind from religion, by writing on a Sabbath morning about Turmeau's famed tea, the scab in sheep, or Mr. Russell Shaw's great speech at the last Central Railway meeting. There is nothing intrinsically irreligious or profane in these topics, and possibly if our readers were counted out, they would vote for such matter in preference to a chapter on church going—or a seething article on the benefits of the early crusades.

In turning, therefore, on this serene Sabbath morning from our regularly beaten path, let not our readers for a moment suppose we are about to plunge into the other extreme by writing a sensational chapter on the mysteries of Buenos Ayres, or, catering to the depraved taste of vitiated Christianity, by publishing a chapter of horrors so exquisitely astounding as haunt the mind during regular church hours. Full well are we aware of the pernicious effects of the cheap literature which at present floods the cities and towns of Great Britain on the peeping of Aurora each Sunday morning. This style has met with such success that it has imperilled even the oldest established weekly papers and magazines, and the avidity with which this execrable literature is read by millions is, indeed, a fit subject for study to the philosophic mind, and pregnant with bitter truths humiliating to our race. Keenly alive, therefore, to the deleterious effects of such publications, whether in the form of a penny novel or in a short newspaper chapter, we have ever laboured to avoid investing a crime or an episode with any objectionable sentiment; but really what occurred on Friday night in this city calls for especial remark. Had we the art or the talent of an Ainsworth, a Smith, or a Collins we could narrate this simple story in such an attractive manner that it would outrival "Ela, the Outcast," or "The Woman in White."

On Friday evening, a gentleman who had been sauntering about the Retiro, quietly enjoying his cigar, was proceeding leisurely home when he met a very elegantly dressed female, who, in most sympathetic accents, asked if he could tell her the shortest way to Calle ——. Our hero, who knows every street in town, politely informed her that the street she inquired for was somewhat distant; but that if she had no objection he would accompany her on her way. She graciously acceded, and in the most winning manner followed her chivalrous guide. They had walked several squares, and come up to the Plaza Parque, when our hero politely suggested that possibly it would be convenient to take a coach, which the young lady at once acceded to. A coach was called, and the driver ordered to drive to Calle ——. The female in question had a beautiful bouquet, which greatly attracted the attention of her companion; she prized the flowers greatly, as one of them was the veritable 'Last Rose of Summer;' and, handing the bouquet to her chivalrous friend, asked his opinion. But here comes the sensational part of the story. This dashing girl pressed the bouquet to the gentleman's nose, and, in an instant, the poor fellow was asleep. She then possessed herself of his watch, chain, pocket-book, rings, &c.; and just as the coach was turning round the corner of one of our most crowded thoroughfares, she called to the coachman to stop for a moment, as she wanted to make a purchase at an adjoining shop. Alighting from the carriage in the most graceful manner, she ordered the driver to wait a moment for her, and then quietly crossing the street she entered a shop, and has not since been heard of. Meanwhile, the driver, with the impudent curiosity of his clan, peeped into the coach and found the gentleman fast asleep. He waited again—looked in—still asleep—no lady. A dark suspicion that he was about to lose his time and his fare flashed across his mind. Possibly the jarvie may have been prone to the literature of which we have spoken, and impressed with the apprehension that unwittingly he was about to figure in some Varney the Vampire, or Bill Sykes the Artful Dodger, certain it is, however, that having waited some three-quarters of an hour, he began to take counsel of the passers-by. In an instant there was a crowd; the young man asleep in the coach was rudely disturbed; the windows opened; fresh air blown in on him, and he at once came too. Then followed explanations and interrogations, which we have no room for.

But let not the interest of the reader flag here, for, on the same night, and almost in the same square, another passage of real life was being enacted, and which, possibly, yet may end before the high tribunals of the country. At an early hour in the evening a fashionably-dressed lady, with two children, and attended by a servant, called at a well-known jeweller's shop and asked to see some bracelets. These costly ornaments were dispiayed with profusion on the counter to the fair customer, but none pleased her. The jeweller retired to an off room to get other bracelets; whilst he was away a man entered the shop, and, it is supposed, walked off with a fifteen thousand dollar bracelet, case and all. Hardly had the lady left the shop and gone a few yards when the jeweller ran out, followed the lady, stating that he missed a bracelet. The affair caused great noise in the street, and from an adjoining tienda the tendero and his clerks rushed to the rescue of the lady, but the importunities of the jeweller triumphed. The lady, children and servant were all searched, but no bracelet was found, and, act number two, the husband of the lady just comes up at the moment, follows the jeweller to his shop, where the drop-scene closes.

During the week there have been many other incidents, some even of a tragic importance, which, in the keeping of a London editor, would receive the necessary touch and finish to appear in print as of the most thrilling nature. We discard, however, Mr. Cazon's criminal sheet for the week, and only call the attention of our readers to the foregoing to show 'that such things can be' even in this remote corner of South America.

THE RIESTRA LOAN.

The supporters of the bill which is now under debate in the National House of Deputies, repealing the authority granted by Congress to the National Government in 1865 to enable it to make a foreign loan for the Paraguayan war, found themselves first on the inactivity displayed by Sor. Riestra, secondly on his operations having affected the credit of the Nation, and being of a ruinous character. Without wishing to touch for the present on the first charge we are anxious to state the plain facts of the case as furnished us by the *Tribuna*, which triumphantly demolish the second charge.)

On the 27th of May 1865 Congress passed an act authorising Government to contract a loan for 12,000,000 patacons, and on the 6th of June of the same year another resolution of Congress having authorized the Executive to seek provisional advances either internal or foreign to be refunded with the proceeds of the loan authorized by the act of 27th May, Mr. Riestra was appointed by the Government to carry out the provisions of these acts. In virtue of the above Sor. Riestra has made distinct operations which should not be confounded, and has negotiated both provisional advances and part of the permanent loan.

The first operation realized was a provisional advance made by Messrs. Baring Brothers of £200,000 at 6 per cent to be repaid with the first moneys received of the loan. This sum was sent in sovereigns with no other charge save one per cent. bank commission, and about half per cent more for freight and insurance. The Argentine Government had the use for several months of £200,000 in gold, at the very moderate interest of less than 7½ per cent per annum.

The second operation realized was another provional advance of £200,000, Messrs. Baring Brothers having authorized the Argentine Government to draw upon them for this amount. This advance was also at the rate of 6 per cent. without commission or other charges since the Government easily found here takers for its bills. Both these operations therefore far from being ruinous, were on the contrary highly advantageous to the Government.

In January 1866 the first bonds of the loan were issued at 6 per cent. with amortization of one per cent., that is to be amortized in 35 years. The emission was for £500,000, and the bonds were placed at 75 per cent., payable in five monthly instalments The last dividend of this first emission was delivered on the 10 July, on which day the loan of the £500,000 had produced £375,000. A second emission of another £500,000 was made, of which only £13,000 were placed at 75 per cent. We have thus:—

£513,000 negotiated at 75 per cent. give.....	£	384,975
Deduct commission to the Bank and to Messrs. Baring Brothers.....		10,266
Net proceeds.....	£	374,709
Actually received.....		372,573
Difference	£	2,136

The difference of £2,136 is due to some discounts made to the subscribers during the term of the five months.

From the above figures it appears therefore that the loan has not been made at a loss of 40 per cent. as has been stated, but it has been in reality negotiated at 72½ per cent. free of all commission and charges. And calculating the six per cent. with one per cent. amortization, and deducting the depreciation from the nominal to the real rate of issue we find that the loan at par is equivalent approximately to about 9 per cent. per annum. Comparing this result with the price of National Bonds here which yield 15 per cent. per annum, nobody can assert that a loan at 9 per cent. which will be amortized in 35 years is a ruinous transaction.

But to proceed. Owing to the impossibility of placing the second issue Messrs. Baring Brothers advanced £200,000 more, which were remitted in gold at 6 p ⅁. interest and with only the addition of a bank commission of one per cent. This advance was made in August 1866, and the Government has therefore had the use of a million hard dollars for twenty-four months at half per cent. per month less than what the Provincial Bank itself charges. These conditions are certainly advantageous, and the Republic owes its best thanks to Messrs. Baring Brothers for the service they have conferred, and to Sr. Riestra for having been the means of obtaining it.

We come now to the expenses of the Legation and the charges on the loan, including interest and commission.

The Government has received between August 1865 and August 1866 £600,000 in gold or drawn for, and has had the use of this sum till 31 December 1867, that is over two years, taking the average time of the temporary advances. For this anticipation it has paid:—

For interest.....	£	54,431
Sr. Riestra's expenses.....		10,171
Expenses for the employés of the Legation.....		957
	£	65,559
For interest on £65,559 for one year, bank commission, printing expenses, freight and insurance on remittances		29,669
	£	95,228

In other words the Government, for the use of £600,000 (3,000,000 hard dollars) for about two years, has disbursed £95,128 including interest, Legation commission and every other expense, equivalent to a trifle less than eight per cent per annum.

He must be a bold man who after reading the above can venture to assert that Sr. Riestra could have done better. That we might have displayed more activity we are not unwilling to admit, but this has nothing to do with the question at issue, and the truth of the facts which we have taken the trouble to establish will serve to redeem the country's credit which would grievously suffer if the report gained ground of our having negotiated a ruinous loan.

LATEST FROM ROSARIO.

There appears to be very little exaggeration in the reports we receive from Rosario in reference to the fearful state of that city. The native papers in Buenos Ayres, and even the organ of the party in power in Santa Fé, speak of them without reserve.

This state of things exists in the very seat of the Provincial Government, as Mr. Cabal and his Ministers are actually residing in Rosario. The *Capital* tries to lay the blame on the partisans of the former administration; but this must be only a very lame pretext for getting out of the responsibility. The fact is that neither party is to blame for the daily murders that are committed; they are the natural consequences of a revolution that has been effected by the Gaucho element of the Province, and the better class of men belonging to the triumphant party are actually too few in number to restrain the bad elements which they made use of to attain their ends.

"Set a beggar on horseback and he will ride to the devil" is an old saying, and certainly holds good in reference to the gaucho of our camps. Only give him power, and the means to enable him to evince his antipathy to the civilisation of the city, and all his old natural antipathies will at once manifest themselves.

The outrage committed on Dr. Perez is, however, something more than this. Colonel Rodriguez has been heard to say that Dr. Perez is the only man of Oroño's party that he would willingly immolate, and Rodriguez is known to be a humane man. This enmity to a man who has meddled but very little in the political affairs of the province is singular enough. Dr. Perez is known to be an extremely liberal man in his opinions, an enemy to clerical ascendancy, and one of the principal promoters of the Civil Matrimony Bill. But in all these he went no further than Mr. Cabal, the very man who has been elected Governor.

The intention of the party that attacked Dr. Perez's house, was probably to murder him, although they brought an order from the Governor, and Perez undoubtedly acted prudently in escaping. The doors were riddled with bullets, a pretty clear evidence that a pacific capture was not intended.

It is very painful to have to depict these scenes in a town like Rosario, with a population of ten or twelve thousand foreigners. But they are one of the evanescent phases of this mercurial nation.

The English and Italian Ministers, we believe, have taken the matter in hand, and the President has been formally spoken to on the subject.

After the attack on Dr. Perez's house we understand that the party were about to attack the house of Mr. Aldao, but were prevented by Col. Rodriguez.

The affairs of Santa Fé are being further complicated by a split in the dominant party. Mr. Rosas, the candidate of the respectable portion of the Federal party, is at loggerheads with Colonel Rodriguez, Nelson, and Paz: the former is supported by the town, and the latter by the camp people. This circumstance will probably bring about a change in the Government soon.

In the meantime, we are happy to say, that the material progress of the city of Rosario is improving. The station of the railroad is getting on very satisfactorily. The new steam brick machine is at work, and the boundary wall of the station is in progress. The excavations are a very serious matter, and have been the cause of the slowness of the works up to the present time. Two locomotives have been in continual operation removing the earth.

The Gas-works are nearly finished, and the machinery is being now disembarked. A very handsome street is being cut through the barranca leading to the Calle de la Rioja, in front of the works. It is hoped that the principal streets will be lit by gas before the end of the year.

The works on the fine Government-house, commenced by Mr. Oroño's administration, are stopped since the revolution, but general building in the town is progressing. There is scarcely a street in which new buildings are not in process of construction or old ones reformed. Mr. Moreno has a house in Calle del Puerto entirely faced with marble, and the building intended for an hotel, in the same street, promises to be a credit to the town.

The probability of Rosario being made the capital, has again induced a lively speculative interest in town lots.

The business on the railroad is increasing in a ratio that gives legitimate golden hopes to the shareholders. The telegraph will be finished to Cordova simultaneously with the conclusion of the Buenos Ayres and Rosario line.

The project of the water-works is still, however, in abeyance, but it is said that the new Municipality will take the matter in hand with a will.

The whole circuit of the principal plaza is handsomely flagged, making a broader sidewalk than that of the Plaza Victoria, it is said.

In presence of the actual progress of Rosario we are led to give less importance to the political troubles in that province. The one is permanent, the other, there is every reason to hope, will soon disappear.

The statements of the Rosario banks, for the month of May last, are as follows:—

Mauá Bank—
Emission $f.38,526
Cash on hand 109,000
Commercial Bank—
Emission.....467,000
Cash on hand.....308,000
River Plate Bank—
Emission.....364,000
Cash on hand.....537,000
Argentine Bank—
Emission.....446,000
Cash on hand.....324,500

Thus, the state of the Rosario banks is so far satisfactory, and we doubt not that all will go on right up there, notwithstanding the great dangers apprehended owing to the crisis in Montevideo and Entre Rios.

The head tax-gatherer notifies the following named parties that the Contribucion Directa is still due and owing on their properties:—

P. Krell $f.38	440
John Smith..... 12	80
Henry Pearson..... 18	0
Charles J. Bollaert.. 6	40
Dr. Valle 200	0
Dr. Lorenzo Torres..225	0
Angel Tejo 300	0
M. Echavarria 300	0
E. Paz 300	0

All these taxes must be paid up within thirty days, or incur a fine.

Most of the parties live in Buenos Ayres.

EDITOR'S TABLE.

Sr. Colodredo, the ex-Minister of Corrientes, has directed a note to the National Government, demanding the intervention of the National authority on behalf of the imprisoned Governor Lopez. The question threatens to be a very serious one, as no act of Gov. Lopez since he has been imprisoned can be regarded as done by his free will. Congress evidently regards the matter in the same light and leans towards the deposed Governor since they admitted Colodredo without the usual electoral diplomas.

Near to Gualeguaychu, and about midway on the road to Gualeguay, there is a magnificent estancia now for sale. The land is some of the finest in Entre Rios. It will be sold cheap by the owner, who is an Englishman, and, although only a few years here, sighs to leave South America.

One of the hardest-worked public officers in this city is Mr. Henry O'Gorman, the Chief of Police. Of late the business of this department has so much increased that the Chief is obliged to take his meals in his office. The Chief is an excellent good man, but we cannot say much for his policemen, who are invariably *non est inventus* whenever required.

A project has been laid before the Provincial Legislature for the purpose of building a new town in Palermo, and the proposed concessionaires only ask of the Government a free grant of the townsland to carry out the scheme.

We are happy to notice that the German gentleman, the owner of the powder-mill at Palermo, who last year met with so sad an accident when about to publicly inaugurate his establishment, is now able to go about. He was on the Bolsa the other day.

Mr. Sullivan's project for clearing the harbour of wrecks &c., has not as yet been accepted; we hear however that it is the best and cheapest and will ultimately be approved by the Minister. Mr. Quinn who is Mr. Sullivan's partner is now busy in Rosario with Mr. Carmody, putting up Arteaga's new Gas Works. Respecting the salvage claims of these active contractors for the Brazileiro, we hear Dr. Lopez and Dr. Irrigoyen are of opinion that notwithstanding the peculiar language of the contract with Lazama, they still have a right to recover for a portion of the work. It is really very hard that these men who worked so hard and saved the Brazileiro should be left so long unpaid.

There have been some heavy sales of Chilian wheat within the last few days, and at a profit; until recently no business of late has paid better than this Chilian wheat speculation; it has even paid to buy Chilian wheat here and ship it to England, although attended with immense risk some speculations have paid splendidly; one consignment of about £2,000 sterling left some £300 sterling profits.

The Supreme Federal Court has dismissed the case of Baudrix's claims for various leagues of land bought with Rosas' military scrip. The great value of the lands in question made this suit rather a celebrated case; we know nothing of the merits, but the decision of the court meets with general approval.

The shares of the Argentine Marine Insurance Company, upon which only 25 pats. have been paid, are selling now at 150 pats. each, and even at this high price it is impossible to get any large number of shares.

Messrs. Von Rehn and Brenkmann, of Rosario, have sold out to Don Mauricio Frank, who henceforward carries on the business of the concern in his own name.

We notice that Mr. Thomas Cullen, of Santa Fé, advises that he pays in specie and at par all the notes of the River Plate Bank, of Rosario.

Nothing further has transpired respecting the movement of Caceres or the Government troops; but we hear that Government has despatched to Corrientes twenty pieces of artillery. This Correntino affair keeps all Entre Rios in hot water, and is also warmly discussed in Santa Fé.

The splendid American barque Jewess is now loading in Rosario direct for the United States. We learn that Mr. Perkins and family leave in her for the land of Brother Jonathan. We wish them a pleasant voyage, and hope soon to see them back.

People are most anxious to know on what day Congress decides the great Presidential question. We believe no special day has been fixed, but that as soon as the house has received all the returns from the Provinces the affair will be at once taken up.

This is the era for selling large houses: yesterday, it was very currently rumored that the splendid house in Calle Cangallo, called the Ancla Dorada, has been sold; there is great reserve about the price, but it is believed something about 5,000 ounces. The Hotel de Paris, in Calle Mayo, it is also said is in treaty; the price named $750,000.

The constant drilling going on at the rear yard of the Provincial Government-house attracts much notice. At sunset, the troops are all mustered in the street, and the roll called over. People naturally ask for what is all this military display. We believe the troops are kept there to protect the Patente Office, which is so full up with money that it is difficult to shut the doors of the premises. Not for years has there been such a military display in the peaceful quarters of Calle Bolivar as at present—even the almaceneros stare at the soldiering going on.

The musical committee of the Philharmonic Society request us to inform its members that the first general rehearsal, with orchestra, will take place to-morrow night, at half-past seven o'clock punctual, in the Coliseum. It is of considerable importance that all those who take an active part in the forthcoming concert be present at this rehearsal, as the night of the concert

is fixed for Tuesday, 28th inst., in the Coliseum. The official announcement will be published in our next.

We have received the first number of a new Spanish periodical called the "Eco de Ambos Mundos," published in Madrid once a week, on the 7th, 14th, 21st and 28th of each month. It is in the shape of our magazines, and each number is to contain 128 pages. It embraces politics, commerce, science, literature and fashions. No name is given, not even that of the publishers, and the articles are all anonymous. The first is on Nationalities, then one on the history and progress of paper, another on association in Europe, and one on the love of home. Then follow the first chapters of a novel, "Hate unto Death," and, afterwards, musical, political and scientific reviews, law reports, fashionable intelligence, and, lastly, official documents. We have only had time to glance at the contents of this new publication, which, however, seems edited with considerable ability, and deserving the support of our reading public.

We have to thank Mr. Salas of the Topographical Department for his new map of this city, which now adorns our office. It is beyond all question the very best map ever made of this city, and we recommend our readers to call and inspect it at our office.

In the National Senate yesterday sentence was pronounced in the case of Judge Palma, and he was acquitted by a large majority.

INTERESTING FOR THE LADIES.

THE NEW FASHION.

Fashion, after exhausting all the world of nature and art, has now called upon science to supply her with new charms. For ornament, electricity is coming into use! You may see, at a fashionable ball in Paris, a lady, on the top of whose head sits a butterfly or a humming bird. The fly and the bird flutter their wings in the most natural way possible. How is it managed? Why, within the chignon are concealed a small battery and a minute Rhumkorff coil. On the bosom of another lady may be a brooch, with a head upon it, the eyes of which turn in all directions. This, too, is accomplished by the use of a battery and coil so minute as to be concealed within the brooch itself. These small batteries, easily carried about the person, are of zinc excited by a solution of sulphate of mercury, which is enclosed in vulcanite cells, so that the exciting solution cannot escape to the damage of the wearer. A little more, and the toilet-table of Beauty will be like a laboratory, with chemicals in place of washes and sweet waters, and induction-coils supplating hair-pins. What next—and next? Shall we not have electric telegraph-wires for confidential messages, and gentle shocks administered in place of Nature's telegraphy of a tender pressure of hands? The electric light as an ornament in place of jewels will of course follow; and the phrase "I am positively electrified" will be but an exact scientific description of the condition of the fair speaker.

PAGAN O'LEARY.

This celebrated case has given rise to the following list of religions at present in Ireland. Is it any wonder that the country should be in such a state?—The following is the list of the various titles by which the religious denominations were returned to the Irish Registrar-General at the Census of 1861:—

Unitarians, Covenanters, Reformed, Presbyterians, Moravians, Seceders, Christian Brethren, United Presbyterians, Evangelical Unionists, Separatists, Lutherans, Unitarian Presbyterians, Nonsubscribing Presbyterians, Dissenters, Free Church of Scotland, Protestant Dissenters, Christians, Plymouth Brethren, Catholic Apostolic Church, Primitive Methodists, High Church, Latter Day Saints or Mormons, Christian Israelites, Orthodox Presbyterians, Greek Church, Arians, Brethren, Disciples of Christ, Calvinists, Congregationalists, Evangelical Church, Freethinkers, Secularists, Deists, Evangelical Protestants, New Jerusalem Church, Nonconformists, Darbyites, Swiss Protestants, Seceding Presbyterians, Members of the General Assembly, Kellyites, Believers in Jesus, Protestants of no particular denomination, Welsh Methodists, Swedenborgians, Sinners saved by Grace, Old Lights, Universalists, Independent Presbyterians, Reformed Church, Dissenting Presbyterians, Bible Christians, Trinitarians, German Protestants, New Connection Methodists, Calvinistic Methodists, Members of Christ's Church, Anabaptists, Churchmen, French Protestants, Swiss Church, Eastern Reformed Presbyterians, Free Churchmen, New Church, Socialists, Church of Denmark, Armenian Methodists, Lady Huntingdon's Connection, Walkerites, Morrisonians, Episcopal Church of America, Palatines, Remonstrants, Brethren in Christ, Church of Christ, The Word of God Alone, Seekers, Rationalists, Materialists, Cromwellian Protestants, Puseyites, French Church, Italian Protestants, Swiss Reformed Church, Swedish Protestants, Welsh Church, Prussian Evangelical Church, French Evangelising Church, Evangelical Waldensian Church, Primitive Seceders, Arminian Presbyterian, Baptist Presbyterian, Free Church of Switzerland, Cameronian, Association Methodist, The Bible Alone, Self-Opinion or the Church of God, Saint of No Sect, Nonsectarian, Orthodox, Theist, Philanthropist, Positivist, Political Nonconformist, no particular persuasion, undecided, doubtful, Hindoo, unbeliever, Atheist, no religion. These religious denominations are arranged numerically, the first on the list numbering 3,800. In the aggregate they amounted to 14,695. To complete the list there should be added Roman Catholics, members of the Established Church, and Jews. Under the head 'Protestant Dissenters' were included Baptists, Quakers, Independents, Methodists, and Presbyterians.

ANOTHER STEAMER FOR RIVER PLATE.

TRIAL TRIP.

Glasgow, May 21, 1868.

The commodious saloon steamer Ozorio, of 182 tons and 50 h. p, built by Messrs. Robertson & Co. of Greenock, and engined by Mr. Rowan of Glasgow, having completed all her fittings, went down the river on Tuesday last on a pleasure excursion, with a large party on board. She has been built to the order of Mr. John G. Kincaid of Greenock, for Don Antonio da Costa Salveiro of Rio Grande, and is intended for goods and passenger traffic on the River Plate.

All her cabin accommodation is on deck, and as length is limited by the abrupt turnings on the river, the most has been made of her space, and the engines, which are oscillating, have been constructed so that they can disconnect; and thus by working the one forward and the other astern, the vessel can turn in her own length.

Among those on board we observed Capt. Kincaid, Mr. John G. Kincaid, Capt. Bruce, of Southampton, ex-Bailie Craig, of Glasgow, Dr. Wilson, of Greenock, Mr, Rodger, Mr. Melville, Mr. Newton, Mr. Simpson, Messrs Robertson, and Hastie, of Robertson and Co., and Mr. Rowan. After running the Lights, which she accomplished laden with coal for the voyage out, in a most satisfactory manner, the steamer having more than accomplished the stipulated speed, the vessel proceeded to Corrie, and then coasted Arran to Loch Ranza, where the party went on shore. On re-embarking, dinner, provided by Mr. Borland, was partaken of, and the customary toasts were duly proposed and acknowledged The steamer returned *via* Kyles of Bute. We believe that she will sail for Rio Grande under the command of Captain Craig, on Tuesday first. This is the third vessel Mr. J. G. Kincaid has sent out to South America from this, and a fourth, built by Messrs Robertson and Co., will be sent out in the course of this month.—*Greenock Advertiser*, of May 21.

"JUSTICIERO" AND THE BRITISH CEMETERY.

To the Editors of the "Standard."

Gentlemen,

Before "Justiciero" and his undignified and splenetic productions pass into an obvious oblivion, I claim the privilege as a subscriber, to make a few observations upon his remarkable reply to "Trabuco."

With "Justiciero," as portrayed by himself, I have to deal, and whether in public life he wears the robe of a churchman, or the wig of a magistrate, is to me a matter of supreme indifference. I am justified in saying that a more bombastic example of repugnant self-adulation never figured in the columns of your journal. "Justiciero" boasts of his taste, fine breeding, meekness, abilities, and learning, but he will assuredly require to produce some tangible testimony to support his professions, before they are ratified by the public. With the storming and domineering tone of a pedagogue, he flourishes the rod of correction above the head of his doomed victim, and then endeavours to strangle him with a wisp of classic lore, which has become intolerable in quotations, and I dare venture to affirm, was in this manner first impressed upon the erudite mind of "Justiciero." A friend, who in his youth struggled through his "Delectus," &c., has favored me with a free translation of this learned line—"Trabuco was in labor, and brought forth Justiciero."

This embodiment of ancient "wise saws," informs us that, "many little-minded, and superficially-educated persons," are anxious to appear in the public press, and that many a "scribbler owes his fame to a discussion with some superior intellect [?] whose ideas he was unable even to comprehend."

Modest-minded reader, summon up courage to what follows:—"Perhaps, this too is the ambition of the individual who has had the unpoliteness to insult one who never insulted, at least knowingly, any human being!" Ye gods! it doth amaze me! The surpassing modesty of this philantrophist stifles opposition! Let me for a moment bask in the splendour of his literary radiance, and touch but the hem of his renown-giving garment!

Shades of Wesley, R. P. A worthy disciple has blazed forth, like a constellation in the West, and is determined to snuff out all the lesser luminaries. Well, really, this twaddle about logic, by "Justiciero," to use his own inimitable language, is "certainly rich." What a persuasive testimony to the logical acuteness of "Justiciero," is conveyed in the following extract—"What a nice, friendly advice he (Trabuco) gives me at the end of his slet windy epistle. But the words in which it is expressed are so hackneyed, so common-place, that he ought to have couched it in other terms." The latter sentence is a startling illustration of the perfection in composition to be attained by a studious application to logic, and Professor Barry's "Grammar of Eloquence." I have no means of forming an estimate of the value of "Trabuco's brains," but the "argument" about the sheep and dog tax, as applied to the British Cemetery case, affords, a bright criterion of the quality of "Justiciero."

If I deny that the British Cemetery is a nuisance, I deprive "Justiciero" of his premises, and down crumbles the airy fabric of his "conscientious" deductions. The virtue of the question is not—"Did the Municipality vote against their consciences?" It is simply were they justified in decreeing the closing of the British Cemetery in the arbitrary manner in which they have attempted it? Let this pretentious champion of Municipal conscience direct his deductive mind to the correspondence that has passed between the Municipality and the trustees of this British property, and tell me if there are no proofs of prevarication, petty tyranny, and injustice?

The tenor of "Justiciero's" communications convinces me that he never planted a foot within its walls, and that if his genuine colors were displayed, his vaunted impartiality would hide itself for shame.

Gentlemen, the supercilious egotism and pedantic arrogance of "Justiciero's" style and language, scarcely merit serious attention. A gentle reproof, however, from an unexpected quarter, may perhaps, restrain his mad and reinless career. If he be possessed of talent and erudition, which he has vainly attempted to *proclaim*, they will shine forth in his productions. Let him avoid nauseous self-puffery, which, to a discerning mind, is conclusive evidence of a feeble and shallow intellect.

I fear, from the prodigality with which he has bestowed his counsels, that his ungovernable genius will scorn to listen to advice. I will, nevertheless, venture to suggest to him the propriety and necessity of taking a lesson from the fable of the ass and the lion's skin, before he again brings himself into public observation in the columns of the "Standard."

I am, Gentlemen,
Yours obediently,
A BRITISH CLERK.

ON 'CHANGE.

July 18, 1868.

Ounces,	400
Sovereigns,	122½
Patacons,	25
National Bonds	43¼

National Bonds fell off to-day, and sales were made as low as 43½. They closed, however, at 43¼, a shade better. Much importance was attached to the Bolsa telegram, which stated that the American Minister at Rio had demanded his passport. Passengers from Montevideo improved on the news, by stating that the American Admiral had sent orders to the Wasp to at once proceed up the river to force the blockade, and go up to Asuncion. How far correct this news may be it is difficult to say, but the opinion is gaining ground that the Rio Cabinet has assumed a false position, and will be obliged to back out.

The news from Montevideo possessed little importance, beyond the arrival of the Poitou. To-day being a holiday in Montevideo, there was no business done, but there were private trlegrams received, stating that on Monday the Maua Bank would be open; but nothing positively certain was kuown on the Bolsa.

Exchange opened to-day, and the rate has gone up to 50¼, although at that rate nothing as yet has been done; but some of the Exchange brokers stated that the best bills for large amounts could be had at this rate.

Money ruled extremely tight to-day, and some first-class bills were discounted as high as 1½, and even it was said at 1¾ per month.

The news from Entre Rios to-day was regarded as highly satisfactory. The banks at Gualeguaychu paid up without any inconvenience, and the much talked of crisis has passed. The Bank of Oxandaburu y Garbino is doing a splendid business, and the Manager, Mr. Gras, is the most popular man in Gualeguaychu. Bolivians have been scarce, but gold abundant.

The failure of some native dealer in Rosario was announced; liabilities not stated.

The commercial news, per Poitou, was not generally known on 'Change. River Plate produce rules the same, and money at 1 per cent. per annum.

The sales of Bonds to-day for cash amounted to 64,000, closing at 43¼. For July 31st, 105,000, at 43½. For September 30th, 50,000. at 44½. For August 15th, 20,000. at 43¾. For September 30th 10,000, at 44⅝. The total sales, 269,200.

The wheat brokers from the Plazas report a rising market, and state that the wheat-sowing this year will eclipse all former years. In the province of Magdalena, on Mojan's splendid estancia, over 100 squares have been ploughed up for wheat.

There was a very stiff demand both for paper and gold in the afternoon. Large sums for this time of the year were required for the Plazas. The collections through town were, as usual, much complained of.

In house property, there have been several important sales during the week. A leading real estate broker has promised us a list of the sales on Monday.

Mr. Wheelwright left this morning for Rosario. We understand that the works of the new station at Rosario are now progressing, and great efforts are being made to conclude the line of telegraph from Rosario to Cordova.

On Monday some fresh drafts from head-quarters are expected for the contractor of forage.

The sales of Chilian wheat here and to arrive during the last few days amount to about 20,000 fanegas, prices from 250 to 255.

REGARDING
THE ASSOCIATION
FOR THE
PROTECTION OF COMMERCIAL INTERESTS,
AS RESPECTS
WRECKED AND DAMAGED PROPERTY.

OFFICES: LLOYD'S.

I, the Undersigned, noticed an Advertisement in The Standard, of June 24th, 1868, that Mr. John Lawes, established in Montevideo, Banda Oriental, as a Shipwright, has been appointed by the said Association as Correspondent only for Montevideo and Buenos Ayres, and notices all Captains of Vessels, and all whom it concerns, that he has appointed one Peter Harnell his Agent in this now large City of Buenos Ayres, quite a different Republic, and under different Consular Agents, or Agents for Lloyd's, and as far as my knowledge, got the same Harnell introduced in a Consul's Office as being able and competent to Survey and Inspect any Vessel under damages.

I consider that the respected Agents in London forgot that we have a well-respected Lloyd's Agent and British Consul on this side of the waters of the River Plate. Surely they would not allow an unknown party to come and post himself as a Surveyor of English Lloyd's, which I consider an occupation of great responsibility, without he had certificates to show in London from Lloyd's Agent, or from the Consul, of his nationality; that two years previous he was in Buenos Ayres, and did not provide said documents before he left.

A Correspondent may be a Tailor or Shoemaker if he can write, but a Lloyd's Surveyor should be an old retired officer of the Navy, if possible, or some man who has a good knowledge of a Ship or Shipbuilding. For my part, I do not envy the situation, as I am getting a man in years, but I would be glad to see a man of experience occupying any situation of responsibility, especially in the Navigation Trade. I have been resident in this city 18 years, have not built any large Vessels, because they would cost double the price here than in Europe or the United States, but can show the Plans and Documents of several seagoing Vessels of my construction before I came here, and have seen some of them navigating in this River many years, and since I came here have had the pleasure to be named by nearly all the Foreign Consuls, besides this country's Consuls, as Surveyor or Arbitrator in some difficult cases in company with Arbitrators of all nations and languages, and so far have never been rejected.

When Mr. John Lawes, of Montevideo, brought over his Agent for the Association of Lloyd's Company to this City and recommended him, or gave notice to all Captains of Vessels and to whom it might concern, he did not consider that this was a different Republic. If he had so much power, he should apply himself to our Lloyd's Agent and Consul of this City first to put in force his power.

THE ACME OF MEDICAL SCIENCE
IS ACHIEVED IN THE WONDERFUL DISCOVERY OF NEW MEDICAL PRINCIPLES IN
DR. RADWAY'S
PERFECT PURGATIVE PILLS
COATED WITH SWEET GUM.

1st Principle—A vegetable substitute for Calomel or Mercury is secured.
2d. A cathartic that cleanses the alimentary Canal and its neighboring Viscera as thoroughly as Lobelia does the stomach.
3d. Functional Harmony is secured to the secreting vessels of all the organs and glands in the system.
4th. Purification and equalization of the circulation of the blood.
5th. The properties of these Pills communicate a nutritious principle to the blood and reparative secretions
6th. A great want is supplied in their soothing, healing and expulsive power in cases of intestinal ulceration, as in Eruptive Fevers, where a cure depends upon free evacuations.
7th. The aged and persons suffering from paralysis of the bowels, by the use of one pill per day, secures regularity.

Persons suffering with any disturbance of the secretary organs, or that have difficulty in discharging the contents of the bowels, or that are in the habit of taking Pills or opening medicines, should try one box of these truly excellent Pills. The happiness of their effects on the system, and the satisfactory evidence one box will give you of their wonderful curative powers, will convince you that your faith and trust in them will become firmly established.

RADWAY'S
REGULATING PILLS.

A newly discovered principle in vegetable medication is securred in Radway's Regulating Pill, that places them far in advance of all other Purgative or Cathartic, Aparient or Sedative, and Anti-Bilious Medicine. They are the only vegetable substitute for Calomel or mercury known; the only Medicine that, during their process of purging, imparts nutriment to the debilitated system, and strengh, vigor and purity to the blood, and impaired secretions; the only purgative that will cleanse the Alimentary Canal and obstructed intestine as quickly and thoroughly, without weakening or neanseating the patient, as Lobelia (the most active and thorough emetic of the herbist) will the stomach, and the only purgative at present known safe to administer in case of Small Pox, Yellow Fever, Erysipelas, and other Malignant Fevers, that inflame and ulcerate the mucuous membranes of the Bowels, Stomach, &c.

THE PROPERTIES OF
DR. RADWAY'S PILLS.

They equalize the circulation, Purify the Blood, and Purge Corrupt and Acrimonious Humors, and retained deposits from the system in six hours.

AS A CATHARTIC, the increase, when suspended, the peroitaltic movement of the bowels, and promote a quick evacuation of its contents. Their influence is extended throughout the system, purging the retained deposits in the stomach, into the duodenum, stimulating the secretory, ducts of the pancreas and liver, in the promotion and increase of the flow of bile and pancreatic fluids.

PURGATIVES of common aloes exert their action on the colon and rectum by irritation of the mucuos membrane, without influencing the liver or its secretions. Such cathartics are unsafe in pills for general use. The common Cathartic Pills, that induce drastic liquid discharges, should never be given in cases of inflammation, or when there is ulceration of the intestinal canal.

THE APERIENT and mild LAXITIVE properties of RADWAY'S PILLS are the best safeguard in these disorders, and in all cases of eruptions and malignant fevers their balsamic, healing and sothing properties protect the coats of the alimentary passage against the irritant and acrid humors of the fauces.

THE NUTRITIOUS AND TONIC properties of these Pills are of great service in depleting fevers and uterine discharges, likewise as a dinner pill, to increase the appetite and promote digestion.

THEIR SEDATIVE properties allay pain in the nervous system, stomach and bowels, either from inflamation, colic, flatulence, wind, cramps, &c.

THEIR COUNTER IRRITANT influence extends throughout the system where there is inflamatiou, congestion or irritation, stimulating the blood and nervous fluids in the congested vessels, and equalizing its circulation. The principle of Counter irritations is generally applied to extrenal remedies. Its application, internally, in the form of a purgative medicine, exemplified in Radway's Pills, has proved a wonderful curative principle, readily withdrawing from the blood and fluids their acrid and irritating humors.

AS DIAPHORETICS OR SUDORIFICS they stimulate the secretions of the skin, induce exhalation of obstructed perspiration.

THEIR DIURETIC properties act on the kidneys, correcting and regulating the flow of urine.

THEIR ANTI-BILIOUS properties stimulate the liver in the secretion of bile, and its discharge thorogh the biliary ducts. In all cases of Headache, Jaundice, Bilious Attacks, Saffrom-col red Sking, Impaired Digestion, caused by the overflow of bile and its mixing with the blood, thete pills, in doses four to six, will quickly regulate the action of the liver and free the patiedt from these difficulties. Ona or two of Radway's Pills taken daily, by those subject to bilious pains and torpidity of the liver, will keep the system regular and insure healthy digestion.

In case where there is severe inflamation, paralysis of the bowels, and a speedy discharge of their contents required, grind six of the pills to a powder and take in some preserves or water. In half an hour the pills, given in this way, will generally operate. The dose can be repeated, if necessary, in two hours. We have known the pills, given in this form, to open the bowels ween Croton Oil, Elaterium, Podophyllum 'Mandrake' have failed. It is seldon that a second dose will be required in these cases of Intestinal Obstructions.

N. B.—Ask for Radway's Regulating Pills.

SAVINGS BANK.

BANK MAUA AND CO.
101--Cangallo--103.
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.
The Bank of Mauà & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.
The sums deposited in that very important institution are daily increasing, and already reach a very large amount.
These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.
The Bank of Mauà & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes alerady mentioned, Sundays and holidays excepted.
The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.
The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.
The Bank of Mauà & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.
The Bank of Mauà & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.
Buenos Ayres, 2nd January, 1867.
P.P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.
Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.
Third—The depositors can at any time retire the whole or part of the money deposited.
Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.
Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

THE "GLYCERINE" DIP,
FOR SHEEP AND LAMBS,
FREE FROM ARSENIC, MERCURY, MINERAL AND OTHER POISONS.
DEADLY TO ALL PARASITES INFESTING THE SKINS OF SHEEP AND OTHER ANIMALS.

THIS PREPARATION is destined to supersede the Compounds hitherto Advertised, and which have a tendency to destroy Animals, injure the Men engaged in Dipping, and weaken the Wool by their caustic and reducing properties.
The "GLYCERINE" DIP can be used with perfect safety at any Season of the Year, and has been found in practice invaluable for the following purposes:—
I.—In Curing Scab, Killing Acari, Fags, Ticks, and other Parasites which attack the Sheep.
II.—In strengthening and adding lustre to the Wool.
III.—In Washing Sheep shortly before Clipping, leaving the Fleeces in a pure state.
IV.—In Dipping Lambs, even whilst suckling ewes, as they cannot be injured by the Material.
V.—In Dipping Rams at any Time of the Year, without danger of producing the excoriations which always follow the use of other Dips, especially in the Autumn Season.
